TO: Office of the Secretary

ATTN: Chief, Audio Division  
Media Bureau

PETITION FOR RULE MAKING

Cameron Broadcasting, Inc. ("Cameron"), licensee of station KFLG-FM, Channel 234C, Kingman, Arizona (Fac. ID No. 55495) (the "Station"), by its counsel, hereby requests that the Commission amend the FM Table of Allotments to delete Channel 234C at Kingman, Arizona, and allot Channel 234C at Yucca, Arizona as that community's first local service. If the Petition is granted, Petitioner will file an application to implement the Station's operation on Channel 234C at Yucca.

As demonstrated in Exhibit A hereto, Channel 234C can be allotted to Yucca, Arizona for KFLG-FM using the fully-spaced reference coordinates 34-52-1 North Latitude, 113-55-5 West Longitude, consistent with Section 73.207 of the Commission's Rules. A 70 dBu signal can be provided to Yucca from both the reference coordinates and the site specified in Cameron's pending license application covering construction permit BPH-20040505AAC, coordinates 35-6-40 North Latitude, 113-53-8 West Longitude. See FCC File No. BPH-20050321AOI. No

No. of Copies Rec'd. 044  
Last ACQ'D.  
MB 05-75

changes to the Station's authorized facilities are required in order to implement this change in community of license.

The proposed change in community of license of KFLG-FM from Kingman to Yucca satisfies the prerequisites set forth in *Amendment of the Commission's Rules Regarding Modifications of FM and TV Authorizations to Specify a New Community of License*, 4 FCC Rcd 3870 (1989), *recon. granted in part*, 5 FCC Rcd 7094 (1990). First, because no change in location is requested, the proposed use of Channel 234C at Yucca is mutually exclusive with KFLG-FM's existing facilities. Second, there are no radio or television stations licensed to Yucca; therefore, KFLG-FM would be the community's first local transmission service. Kingman will continue to be served by three full-service broadcast stations licensed to Kingman: KAAA(AM), KGNN(FM), and KMOH-TV. Yucca is not located in an Urbanized Area and KFLG-FM's 70 dBu contour does not reach any Urbanized Area. *See Exhibit A.*

Yucca is a community deserving of a first local service. Yucca is located on Interstate 40 and is a separate and distinct town and population center from Kingman (located 22.4 miles from Yucca) and Lake Havasu, Arizona (located 28.3 miles from Yucca). There is no local transmission service allotted to or operating in Yucca. Thus, Yucca, is deserving of its own FM allotment.

Located in Mohave County, Arizona, Yucca has a population of approximately 280 persons. A large lot development called Stage Coach Trails at Santa Fe Ranch is located next to and is supported by Yucca. It has a permanent population of about 100 people and contains approximately 3000 privately held tracts in the development, approximately 10% of which have been developed. *See Exhibit B.*

Yucca first came into being to service the railroad that still passes by Yucca on its way to Los Angeles. Yucca was also a support town for mining operations like the Boriana Tungsten Mine and the Yucca Tungsten Mining Company. Between World War I and the end of World War II, Yucca supported the Yucca Army Airfield which was closed and sold to the Ford Motor Company in 1954. Ford is still active at that site operating the Ford Motor Company Arizona Proving Grounds. See Exhibit B.

The U.S. Postal Service has assigned ZIP Code 86438 to Yucca and maintains a Post Office in Yucca. The town of Yucca is supervised by the County of Mohave and protected by the Mohave County Sheriff's Department. One deputy lives in Yucca itself. Yucca also has its own Fire and Rescue Department. The Yucca Fire and Rescue Department also houses a shared lending library supported by residents of Yucca. The children of Yucca are served by Yucca School District No. 13, which includes kindergarten through the eighth grade. The Yucca Water Association supplies water directly to the residents of Yucca and also provides water for hauling to the residents of the greater Yucca area. Yucca has its own cemetery and is served by many local businesses, including a truck and towing service, a nursery, a design company, a maintenance company, a landscaping and consulting specialist, two construction companies, a land office, a dude ranch, a diner, a micro mart, a miniature golf park (including the famous golf ball house), and a cabinet manufacturing plant. Frontier Communications provides telephone service with an independent exchange number [(928) 766-XXXX] for Yucca that serves 15 listed commercial accounts and 132 listed residential customers. Nextel also provides cellular service to Yucca residents.

The allotment of Channel 234C to Yucca, Arizona, is in the public interest because Yucca will receive its first local service. Several broadcast stations will remain licensed to Kingman. The Commission should promptly issue a Notice of Proposed Rule Making as described herein.

Respectfully submitted,

CAMERON BROADCASTING, INC.

EXHIBIT A

## Engineering Exhibit

### Allotment of 234C to Yucca, Arizona

The following exhibit is in support of the modification of the Table of Allotments to replace the allotment of Channel 234C in Kingman, Arizona with Channel 234C in Yucca, Arizona.

The proposed allotment to Yucca, Arizona with a transmitter location of 34°n52'1" by 113°w55'9" is fully spaced to all co-channel, first, second and third adjacent primary channels and to the two intermediate frequency primary channels as required under 47 CFR 73.287 based on the information provided by DataWorld in their FM Explorer Service. The Allotment Spacing Study is attached and shows the short spacings only to the Construction Permit and License for the use of Channel 234C in Kingman, Arizona, which is the subject of the instant request.

The attached map shows the predicted proposed 60 and 70 dBu contours for the proposed class C facilities at the listed coordinates. This shows that the 70 dBu contour covers the entire community of Yucca, Arizona.

This exhibit has been prepared by me on behalf of Cameron Broadcasting, Inc. and is true and accurate to the best of my knowledge and belief.
